DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1 rejected under 35 U.S.C. 102(b) as being anticipated by Weiss (4093237).

Claim 1: Weiss teaches a game board having variously colored, having parts (B, C, D, E) that can be treated/called as piece collating or piece arranging parts (note: these limitations are intended use limitations or rules for playing and do not further limit the game board apparatus), each part (example : B and E) having equal number of cells and at least 3x3 cells, and clearly teaches each part different from other part with respect to color and not contiguous/adjacent (due to two black rows at the center) and game pieces corresponding to colors of parts (2:44-50).

Applicant may note that the manner of placing game pieces on arranging game pieces on the board is a game playing rule and do not further limit the claimed apparatus.

Applicant may also note that the claim is an open ended claim and cited reference board is allowed to display colors on other parts (example: D and C).

Claim 2: Weiss teaches color correspondence of each piece with each cell (2:44-50).

Art Unit: 3711

Claim 3: Weiss teaches game pieces having at least one side in colors and fulfills the requirement of the claim.

Claim 4: Weiss teaches at least 3x3 cell configuration (Fig.1).

Claim Rejections - 35 USC § 103

3. Claim 3 rejected under 35 U.S.C. 103(a) as being unpatentable over Weiss in view of Audet (5377992).

Claim 3: Weiss teaches all limitations except that it does not expressly teach only one side of game piece having color. Audet teaches game pieces/conventional cards having colors only on one side corresponding to game board cells.

It is well known that often game piece information is required to be hidden from players.

In order to properly conduct such a game it would have been obvious to provide the game pieces with color on one side only. One of ordinary skills in art at the time the invention was made would have suggested providing colors on one side of the game pieces.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
